

# Rain Barrels

Rain barrels collect rain water to reuse for gardens and otherhouse water tasks. Rain barrels reduce the amount of runoff from roofs that can pollute waterways and contribute to drainage problems on properties. They also reduce the water demand on wells.

**FAQs**

**Can I receive help paying for my rain barrel through the Mat-Su Rain Garden program?**  
No, we are unable to fund rain barrels. We can provide tips and resources to guide you with selection and installation at [planning@matsugov.us](mailto:planning@matsugov.us)

**Where can I find more information?**  
Refer to the “Low Impact Development For Homeowners” manual available online at [www.lowimpactdev.com](http://www.lowimpactdev.com).
