

Project Goals

- Identify current and future transportation deficiencies
- Establish purpose and need for proposed solutions
- Prioritize OS&HP corridor recommendations
- Promote comprehensive solutions to MSB’s growth related transportation issues
- Demonstrate the linkage between transportation, land use and economic development

The Matanuska-Susitna Borough (MSB) is preparing the Sub-Area Solutions Studies (SASS) to improve its current transportation network. It will recommend targeted investments to develop new or upgrade existing arterial and collector roads in four growing sub-areas. SASS will identify both road infrastructure improvements and complementary non-infrastructure policies.

- | | |
|---------------------------------------|-----------------------------|
| 1. University Medical District (UMED) | 3. Bogard - Seldon Corridor |
| 2. Fishhook Triangle | 4. Knik Goose Bay-Big Lake |

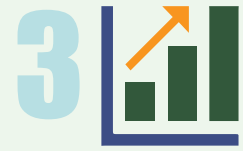

Recommendations will align with the MSB Assembly’s 2023-2028 Strategic Plan’s **Vision, Mission, and Values.**

1 Foster economic growth and diversification within the MSB

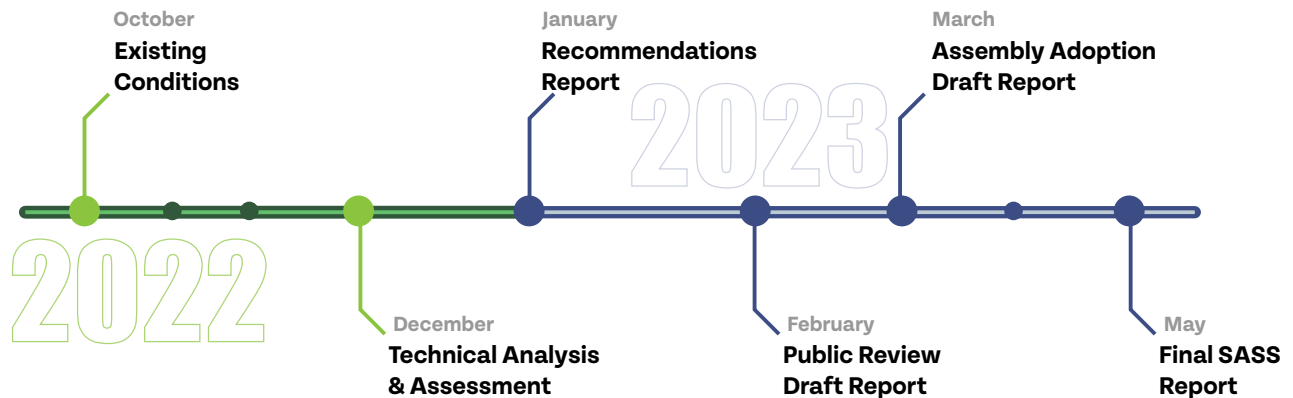

2 Support the delivery of high-quality MSB services

3 Help manage growth throughout the MSB
