Dangerous, hazardous, or explosive cargo movements require advance notification to and approval of the Port Operations Manager as described in the Tariff and the current Port MacKenzie Rules and Regulations.

C. Excess Liability: In order to meet the required minimum limits of insurance, it is permissible for the operator to combine an excess liability or umbrella policy. Burden is on the Operator to demonstrate that excess/umbrella policy attaches to underlying coverage in order to reach minimum limits. On or to the insurance coverages required of Operator under the provisions of Subsection 1., 2., and 5., above of Section 23. B., Operator shall cause the MSB to be named and listed upon the policies as an additional insured. All such insurance policies shall be non-assessable and shall contain language, to the extent commercially obtainable, to the effect that (a) any loss shall be payable notwithstanding any act or negligence of the MSB that might otherwise result in forfeiture of the insurance and (b) the policies are primary and non-contributing with any insurance that may be carried by or available to the MSB.

D. Deductibles and Self-Insured Retentions: Deductibles and self-insured retentions are the sole responsibility of the Operator. Operator may be requested to demonstrate how the deductible or self-insured retention will be funded in the event of a claim. At the option of the MSB, the Operator shall reduce or eliminate such deductibles or the Operator shall procure a bond

guaranteeing payment of losses and related investigations, claim administration and defense expenses.

E. Acceptability of Insurers: Insurance is to be placed with insurers with a Best's rating of no less than A-VII.

F. The insurance obtained pursuant to this Section shall provide for written notice of any termination, cancellation, or expiration of the insurance to be delivered to the Port Operations Manager no less than thirty (30) days before the effective date thereof.

G. The Operator may be required to provide evidence of additional insurances at the discretion of the Port Operations Manager.

Section 24. Force Majeure and Delay Damages

A. Force majeure is an act or event of substantial magnitude, beyond the control of the Operator and/or the MSB, which delays or hinders the Operator's activity at the Port pursuant to this Permit, including without limitation:

1. Strike or work stoppages.
2. Any interruption, suspension, or interference with the Operator's activities caused by acts of God, or acts of the public enemy, wars, blockades, insurrections, riots, arrests or restraints of governments and people, civil disturbances or similar occurrences.
3. Order of a court, administrative agency or governmental officer other than MSB officers.
4. Suspension, termination, or interruption of governmental licenses, consents, authorizations or approvals.

B. No claim for costs may be allowed the Operator for delay or hindrance of its activities under this Permit caused by third parties.

Section 25. Safety

The Operator must conduct all operations in a safe manner, and must comply with all applicable provisions of the Tariff and the current Port MacKenzie Rules and Regulations.

Section 26.

Hazardous Materials

A. Operator may cause or permit hazardous materials to be used, kept, and/or stored at the Port only with the written permission of the Port Operations Manager. Any such materials must be handled in a manner that complies with all laws regulating any hazardous material, the Tariff, and the current Port MacKenzie Rules and Regulations. If Operator breaches the obligations stated in the preceding sentences, or if the presence of hazardous material on the premises caused or permitted by Operator results in contamination of the premises, or if contamination of the premises by hazardous material otherwise occurs for which Operator is legally liable to the MSB for damage resulting therefrom, the Operator shall indemnify, defend, and hold the MSB harmless from any and all claims, judgments, damages, penalties, fines, costs, liabilities, or losses (including, without limitation, diminution in value of the premises and sums paid in settlement of claims, attorneys' fees, consultant fees, and expert fees) which arise during or after the Permit term as a result of such contamination. This indemnification of the MSB by the Operator includes, without limitation, costs incurred in connection with any investigation of site conditions or any clean-up, remedial, removal, or restoration work required by any federal, state, or local governmental agency or political subdivision because of hazardous material present in the soil or groundwater on or under the premises. Without limiting the foregoing, and in addition to all the rights of indemnity set forth in Section 19 of this Permit, if the presence of any hazardous material on the premises caused or permitted by Operator results in any contamination of the premises, Operator shall promptly take all actions on its sole expense as are necessary to return the premises to the condition existing prior to the introduction of any such hazardous material to the premises; provided that MSB's approval of such actions is obtained first.

B. The duties set forth in this Section 26 shall survive the expiration or termination of this Permit.

IN WITNESS WHEREOF, the Parties have executed this Permit on the date first hereinabove written.
