Comments: These look like lots that are under one acre. A community well would be required on lots this size. I am concerned that a community well or multiple close wells will impact the wells & water pressure in the Ridges neighborhood. 1-2 acre lots are preferred and will match the surrounding subdivisions.

The road going into this subdivision is not in a good location on clapp road. The hill is very dangerous in the winter when the roads are icy. There are no future road outlets to any of the other properties. Makes it harder on emergency vehicles. Cul de sac are too small for fire trucks to turn around in. Other property could become land locked. Way too many lots for the acreage. Concern for wells and septic being too close together. No room in the future if the well or septic fails where would the home owner move it to.
