Good Reads reviews state too much porn and not enough plot. The porn is getting old. 2 reviews rate the book 1 star. Good Reads rates the book 4 stars.

 2 employee or official of a school, museum, or public library.

3 * **Sec. 4.** AS 14.56 is amended by adding new sections to read:

4 **Article 7. Access to Library Material.**

5 **Sec. 14.56.450. Public library material policy.** (a) A librarian employed by a
 6 public library may curate library material for inclusion in the public library according
 7 to the policy approved by the governing body of the public library.

8 (b) The commissioner shall establish and update as necessary a model policy
 9 on the curation and reconsideration of library material within a public library. The
 10 policy must provide standards for the selection and curation of library material,
 11 establish criteria for the removal of existing library material, and provide protection
 12 against attempts to censor library material. At a minimum, the policy must

13 (1) recognize that a public library serves as a center for voluntary
 14 inquiry and the dissemination of information and is the marketplace of ideas;

15 (2) promote the free expression of, and free access to, ideas by
 16 prohibiting the censorship of library material;

17 (3) prohibit the removal of library material from a public library based
 18 on the origin of, background of, or views expressed by the library material or of those
 19 contributing to its creation;

20 (4) recognize that library material is provided for the interest,
 21 information, and enlightenment of all people and should present a wide range of points
 22 of view;

23 (5) establish a procedure, based on professional standards, for a
 24 librarian to review the inclusion of library material within a public library on an
 25 ongoing basis, which must include consideration of

26 (A) the relevance of the library material;

27 (B) the condition of the library material;

28 (C) the availability of duplicates of the library material;

29 (D) the availability of a more recent library material; and

30 (E) the continued demand for the library material;

31 (6) establish a model form and a procedure for an individual to request

1 a public library to reconsider library material; the procedure must

2 (A) allow an individual who has used the services of the public
3 library in the past five years and who resides in the public library's designated
4 service area to initiate the review of a specific library material by submitting a
5 request for the public library to reconsider the library material;

6 (B) require that an individual submitting a request for a public
7 library to reconsider library material review the library material as a whole and
8 not challenge library material based on selective passages that are taken out of
9 context;

10 (C) provide that, during the review process, the library material
11 subject to reconsideration may not be removed from its location within the
12 public library and must remain available for a patron to reserve, check out, or
13 access;

14 (D) require that at least one librarian employed at the public
15 library where the request was submitted formally participate in the review
16 process; and

17 (E) provide a process by which an individual can appeal a
18 decision made on reconsideration, using the standards set out in (5)(A) - (E) of
19 this subsection.

20 (c) The governing body of a public library shall adopt the model policy
21 established by the commissioner under (b) of this section, as well as any updates to the
22 model policy. The governing body of a public library that has a policy that meets the
23 requirements set out in (b) of this section on the effective date of this section is not
24 required to take further action.

25 (d) The governing body of a public library may not remove library material
26 from a public library based on the origin of, background of, or views expressed by the
27 library material or of those contributing to its creation. The governing body of a public
28 library may not, based on disagreement with the ideas or concepts expressed by the
29 library material, including objections to a depiction of race, gender, sexuality, or
30 religious or political views, prohibit the public library from acquiring, maintaining, or
31 displaying a specific work or subject matter, restrict access or searchability of library

1 material, or require parental permission for a minor to access library material.

2 (e) The governing body of a public library may not, based on objections to
3 sexual content, prohibit the public library from acquiring, maintaining, or displaying a
4 specific work or subject matter, restrict access or searchability of library material, or
5 require parental permission for a minor to access library material unless, with respect
6 to the specific population to which the library material is made available,

7 (1) the average person, applying contemporary community standards,
8 would find the library material, taken as a whole, appeals to the prurient interest;

9 (2) the library material depicts or describes, in a patently offensive
10 way, sexual conduct defined by AS 11.66.150; and

11 (3) the library material, taken as a whole, lacks serious literary, artistic,
12 political, or scientific value.

13 (f) A government entity that exercises authority over the purchase, selection,
14 curation, and location of library material at the state or municipal level may not reduce
15 funding for a public library because of the public library's compliance with this
16 section.

17 (g) An employee of a public library is immune from civil and criminal liability
18 arising from good faith actions performed under this section.

19 **Sec. 14.56.455. School library material policy.** (a) A librarian employed at a
20 school library may select, purchase, and acquire library material for inclusion in the
21 school library according to the policy approved by the governing body of the school
22 library.

23 (b) The commissioner shall establish and update as necessary a model policy
24 on the curation and reconsideration of library material within a school library. The
25 policy must provide standards for the selection and curation of library material,
26 establish criteria for the removal of existing library material, and provide protection
27 against attempts to censor library material. At a minimum, the policy must

28 (1) recognize that library material is provided for the interest,
29 information, and enlightenment of all students and should present a wide range of
30 points of view in the collection;

31 (2) prohibit the removal of library material from a school library based

1 on the origin of, background of, or views expressed by the library material or of those
2 contributing to its creation;

3 (3) recognize the importance of a school library as a center for
4 voluntary inquiry and the dissemination of information and ideas;

5 (4) promote the free expression of, and free access to, ideas by students
6 by prohibiting the censorship of library material;

7 (5) acknowledge that a school librarian is professionally trained to
8 curate and develop a school library collection that provides students with access to the
9 widest array of developmentally relevant library material created for the chronological
10 ages and grade levels of students in the school;

11 (6) establish a procedure, based on professional standards, for a
12 librarian to review the inclusion of library material within a school library on an
13 ongoing basis, which must include consideration of

14 (A) the relevance of the library material;

15 (B) the condition of the library material;

16 (C) the availability of duplicates of the library material;

17 (D) the availability of more recent developmentally relevant
18 library material created for the chronological ages and grade levels of students
19 in the school; and

20 (E) the continued demand for the library material; and

21 (7) establish a model form and procedure for an individual to request a
22 school library to reconsider library material; the procedure must

23 (A) allow teaching staff employed by the school district,
24 parents and guardians of a student enrolled in the school district, and students
25 enrolled in the school district to initiate the review of a specific library material
26 by submitting to the principal of the school in which the library material is
27 challenged a request for the school library to reconsider the library material;

28 (B) require that an individual submitting a request for a school
29 library to reconsider library material review the library material as a whole and
30 not challenge library material based on selective passages that are taken out of
31 context;

1 (C) provide that, during the review process, the library material
2 subject to reconsideration may not be removed from its location within the
3 library and must remain available for students to reserve, check out, or access;

4 (D) require that at least one school librarian employed at the
5 school and professionally trained to a level determined by the school district
6 formally participate in the review process; and

7 (E) provide a process by which an individual can appeal a
8 decision made on reconsideration, using the standards set out in (6)(A) - (E) of
9 this subsection.

10 (c) A school board shall adopt the model policy established by the
11 commissioner under (b) of this section, as well as any updates to the model policy. A
12 school board that has adopted a policy that meets the requirements set out in (b) of this
13 section on the effective date of this section is not required to take further action.

14 (d) A school board may not remove library material from a school library
15 based on the origin of, background of, or views expressed by the library material or of
16 those contributing to its creation. The school board may not, based on disagreement
17 with the ideas or concepts expressed by the library material, including objections to a
18 depiction of race, gender, sexuality, or religious or political views, prohibit a school
19 library from acquiring, maintaining, or displaying a specific work or subject matter,
20 restrict access or searchability of library material, or require parental permission for a
21 minor to access library material.

22 (e) An employee of a school library is immune from civil and criminal
23 liability arising from good faith actions performed under this section.

24 **Sec. 14.56.460. Private right of action.** (a) A government entity that exercises
25 authority over the purchase, selection, curation, and location of library material at the
26 state or local level may not

27 (1) censor or order another person to censor library material; or

28 (2) impose discipline, threaten to impose discipline, or terminate a
29 school or library employee for refusing to censor library material.

30 (b) A school or library employee may bring an action in a court of competent
31 jurisdiction for damages, including punitive damages, and for declaratory and

1 injunctive relief and other remedies as may be appropriate against a government entity
 2 that violates (a)(2) of this section by disciplining, terminating, or threatening to
 3 discipline or terminate the librarian for the librarian's refusal to censor library material.

4 (c) A student, or the student's parent or guardian, may bring an action in a
 5 court of competent jurisdiction for declaratory and injunctive relief and for damages
 6 against a government entity that violates (a)(1) of this section by censoring or ordering
 7 another person to censor library material within a school attended by the student.
 8 Damages shall be awarded at a minimum of \$451, but not more than \$1,451, for each
 9 censored work.

10 (d) An author, bookseller, or publisher may bring an action in a court of
 11 competent jurisdiction for declaratory and injunctive relief and for damages against a
 12 government entity that violates (a)(1) of this section by censoring or ordering another
 13 person to censor library material written, sold, or published by the author, bookseller,
 14 or publisher. Damages shall be awarded at a minimum of \$451, but not more than
 15 \$1,451, for each censored work.

16 (e) In an action under this section, the court shall grant a prevailing plaintiff
 17 reasonable attorney fees and costs, including expert witness fees.

18 (f) A government entity may not use funds that would otherwise have been
 19 appropriated or allocated to a library to pay damages, attorney fees, or other related
 20 costs.

21 (g) It is an affirmative defense to an action brought under this section that, at
 22 the time of the conduct giving rise to the action, the government actor or member of
 23 the government was acting under direct compulsion from binding state or federal
 24 government authority.

25 (h) An action to enforce this section must be commenced within three years
 26 after the date on which the violation of this section occurred.
