DISCUSSION: A continuation was granted for ASLS 2019-69 during the May 21, 2026, Platting Board meeting. The continuation was needed to allow the time to meet the public notice requirements of MSB 43.15.065(G). Photos and an affidavit certifying that the posting will be maintained at the site of the vacation

has since been submitted by the Petitioner (**Exhibit Pages 34-38**). At the request of platting staff, a second continuation was granted during the June 18, 2026, Platting Board meeting. This was to meet the requirements of MSB 43.15.035(D). The proposed subdivision is vacating the existing public use easement located in the southeastern corner of proposed Tract A, dedicating right-of-way following the existing E. Hillside Drive, and creating two tracts with Tract B being a utility lot lying south of the new road dedication. A plat note will be required denoting that Tract B is a utility lot and that no onsite sewer systems shall be allowed.

Access: Legal and physical access to the proposed lots are required pursuant to MSB 43.20.100 Access Required, MSB 43.20.120 Legal Access and MSB 43.20.140 Physical Access. Access requirements will be met once the dedication of right of way following the current alignment of E. Hillside Drive has been completed.

Petition for Vacation of Right-of-Way: A vacation petition was submitted for the following described Public Use Easements:

That portion of the 60' wide road corridor located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska as shown on the Benka Lake Alaska Subdivision, recorded as plat #85-14 in the Talkeetna Recording District.

The 60 foot wide Public Use Easement as described in Book 103, Page 997, recorded on November 8, 1984 located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska.

R&K Land Surveying, on behalf of Robert L. Dawson, the lessee of ADL 22652, a portion of state land located within T24N R4W Section 4, Seward Meridian, Alaska has conducted a field survey of the existing location of E. Hillside Drive. The State of Alaska is willing to vacate all portions of the existing rights-of-way for E. Hillside Drive related to ASLS 2019-69 with the intention of dedicating a new right-of-way that better fits the location of the existing roads.

Topographic Narrative: A topographic narrative was submitted (**Exhibit Pages 12-14**), pursuant to MSB 43.20.281(A)(1)(i)(i). Rick Wentworth, Professional Land Surveyor, notes that the SE1/4 and the S1/2NE1/4 terrain is generally level with three different elevation changes. The northwest corner is essentially the lowest point and areas in the southeast quadrant is the highest, approximately 170 feet higher in elevation. Although Answer Creek does not traverse through the property, low lands associated with the historic water flowing from higher elevations affect the farthest northwest corner of the property. Immediately adjacent to these low lands, the ground rises approximately 35 feet to a second level bench. This bench is heavily wooded with mature birch and spruce trees. The undergrowth is comprised of typical berry bushes, alder, and some devils club. Continuing in a southeasterly direction, there is another 30-foot rise in elevation to the main level area of the property. The majority of the property is at this level near the 510-foot elevation mark. This land is also heavily wooded with mature spruce and birch trees.

Section Line Easement Determination: A section line easement determination was submitted by Rick Wentworth, Professional Land Surveyor (**Exhibit Pages 15-33**) noting the research used to determine the section line easements shown on the agenda plat.

Comments:

ADOT&PF (**Exhibit Pages 61-62**) has no comments.

MSB DPW Pre-Design and Engineering Division (**Exhibit Page 63**) notes that the existing number of lots accessing Hillside Drive at this location is close to exceeding 100, which would require a residential collector standard road. Would it be at all possible to provide additional right of way on the inside of the curves to allow for future realignment with 550' radius curves?

Staff notes that as this subdivision is not changing the road classification it would not be required of the petitioner to grant this request. The request from PD&E was forwarded to the petitioner's representative.

Development Services (Exhibit Pages 64-65):

Permit Center has no comments.

Code Compliance has no objections.

Utilities: (Exhibit Pages 66-70):

ENSTAR has no comments or recommendations.

GCI has no comments or objections.

MEA did not respond.

MTA has no comments.

At the time of staff report write-up, there were no responses to the Request for Comments from DNR Division of Mining, Land & Water; ADF&G; US Army Corps of Engineers; Community Council #12 Susitna; Fire Service Area #24 Talkeetna; Road Service Area #29 Greater Talkeetna; MSB Emergency Services, Community Development, Assessments, or Planning; or MEA.

CONCLUSION: The preliminary plat of ASLS 2019-69 is consistent with AS 29.40.070 Platting Regulations and MSB 43.15.016 Preliminary Plats. There were no objections from any federal or state agencies, Borough departments, or utilities. There were no objections to the plat from the public in response to the Notice of Public Hearing. Legal and physical access will exist to the proposed lots, consistent with MSB 43.20.100 Access Required, MSB 43.20.120 Legal Access and MSB 43.20.140 Physical Access. Frontage for the subdivision will exist, pursuant to MSB 43.20.320 Frontage. A soils report was submitted, pursuant to MSB 43.20.218(A)(1).

FINDINGS OF FACT

1. The plat of ASLS 2019-69 is consistent with AS 29.40.070 Platting Regulations and MSB 43.15.016 Preliminary Plats.
2. The Vacation of that portion of E. Hillside Drive Public Use Easement lying within the proposed ASLS 2019-69 is consistent with MSB 43.15.035 Vacations.
3. A continuation was requested and granted by the Platting Board during the May 21, 2026, Platting Board meeting to meet minimum posting requirements. The petitioner has provided information required pursuant to MSB 43.15.035.
4. A continuation was requested and granted by the Platting Board during the June 18, 2026, Platting Board meeting to allow the time required per 43.15.065(D).
5. A soils report was submitted, pursuant to MSB 43.20.281(A)(1)
6. The lot has the required frontage pursuant to MSB 43.20.320.
7. At the time of staff report write-up, there were no responses to the Request for Comments from DNR Division of Mining, Land & Water; ADF&G; US Army Corps of Engineers; Community Council #12 Susitna; Fire Service Area #24 Talkeetna; Road Service Area #29 Greater Talkeetna; MSB Emergency Services, Community Development, Assessments, or Planning; or MEA.

8. There were no objections from any federal or state agencies, Borough departments, or utilities.
9. There were no objections from the public in response to the Notice of Public Hearing.

RECOMMENDATIONS OF CONDITIONS OF APPROVAL

Suggested motion: I move to approve the preliminary plat of ASLS 2019-69, Section 04, Township 24 North, Range 04 West, Seward Meridian, Alaska, contingent on staff recommendations

1. Taxes and special assessments must be paid in full for the year of recording, pursuant to MSB 43.15.053(F) and AS 40.15.020. Pay taxes and special assessments (LIDs), by CERTIFIED FUNDS OR CASH.
2. Obtain assembly approval of the Vacation within 30 days of Platting Board Approval.
3. Provide updated Certificate to Plat executed within seven (7) days of recording of plat and submit Beneficiary Affidavit for any holders of a beneficial interest.
4. Add a plat note stating "Tract B is a utility lot. No onsite sewer systems shall be allowed on Tract B."
5. Pay postage and advertising fees.
6. Show all easements of record on final plat.
7. Submit recording fees, payable to Department of Natural Resources (DNR).
8. Submit plat in full compliance with Title 43.

FINDINGS OF FACT FOR THE VACATION OF PUBLIC USE EASEMENTS

1. The vacation of the following public use easements are consistent with MSB 43.15.035 Vacations:
That portion of the 60' wide road corridor located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska as shown on the Benka Lake Alaska Subdivision, recorded as plat #85-14 in the Talkeetna Recording District.
The 60 foot wide Public Use Easement as described in Book 103, Page 997, recorded on November 8, 1984, located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska.
2. A continuation was requested and granted by the Platting Board during the May 21, 2026, Platting Board meeting to meet minimum posting requirements. The petitioner has provided information required pursuant to MSB 43.15.035.
3. A continuation was requested and granted by the Platting Board during the June 18, 2026, Platting Board meeting to allow the time required per 43.15.065(D).
4. Pursuant to MSB 43.15.035(E) and MSB 43.10.065(G), petitioner has provided an Affidavit of Posting of the Public Notice of Vacation of the Public Use Easement.
5. Approval from the Assembly will be required prior to recording, pursuant to MSB 43.15.035(D).
6. At the time of staff report write-up, there were no responses to the Request for Comments from USACE, US Postmaster, Community Council Greater Palmer; Fire Service Area #132 Greater Palmer Consolidated; Road Service Area #16 South Colony; MSB Emergency Services, Community Development, Capital Projects, Assessments, Planning or MEA.
7. There were no objections from any federal or state agencies, or Borough departments.
8. At the time of staff report write-up, there was one objection from the public in response to the Notice of Public Hearing.
9. Vacation of the Public Use Easements are contingent upon recordation of the proposed ASLS 2019-69 subdivision plat.

**RECOMMENDATION FOR APPROVAL OF THE VACATION OF THE PUBLIC USE
EASEMENT**

Suggested motion: I move to approve the vacation of the Public Use Easements described as: That portion of the 60' wide road corridor located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska as shown on the Benka Lake Alaska Subdivision, recorded as plat #85-14 in the Talkeetna Recording District.

The 60 foot wide Public Use Easement as described in Book 103, Page 997, recorded on November 8, 1984, located in the SE1/4 SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska contingent on staff recommendations:

1. Obtain assembly approval of the vacation within 30 days of Platting Board approval.

RE: Access Required

State of Alaska
Department of Natural Resources
Division of Land, Mining & Water – Survey Section
550 West 7th Avenue, Suite 650
Anchorage, Alaska 99501-3576
Attn: Elizabeth Anderson

To Whom it Concerns,

On behalf of Robert L. Dawson, current lessee of ADL 22652, a portion of state land located within T24N R4W Section 4, Seward Meridian, Alaska, **R & K Land Surveying, LLC** has conducted a field survey of the existing location of E. Hillside Drive. The State of Alaska is willing to vacate all portions of the existing rights-of-ways for E. Hillside Drive related to ASLS 2019-69 with the intention of dedicating a new right-of-way that better fits the location of the existing road.

Those portions of the existing right-of-way include:

That portion of the 60 foot wide road corridor located in the SE1/4SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska as shown on the Benka Lake Alaska Subdivision, recorded as plat #85-14 in the Talkeetna Recording District.

The 60 foot wide Public Use Easement as described in Book 103, Page 997, recorded on November 8, 1984 located in the SE1/4SE1/4 of Section 4 of T24N R4W, Seward Meridian, Alaska.

R & K Land Surveying, LLC recommends a new right-of-way for E. Hillside Drive be dedicated. This new right-of-way will conform to the current Matanuska-Susitna Borough Subdivision Construction Manual minimum road design standards. The centerline of the existing gravel road will substantially be located in the center of this new right-of-way as indicated on Exhibit A1 dated July 8, 2021, attached heron. The Platting Department at the Mat-Su Borough has accepted this proposed ROW.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Richard Wentworth, PLS, CFeds
Owner/Land Surveyor

PLATTING

Mr. Wagner,

This letter is being provided regarding the request to vacate certain existing right-of-way (ROW) associated to ASLS 2019-69 on behalf of Cathie Dawson. These ROW's are identified in the Amended Survey Instructions and Survey Plan provided by the State of Alaska dated October 6, 2020 along with the Supplemental Survey Instructions dated July 1, 2021.

SUMMARY

R & K Land Surveying, LLC has prepared submittal documents for the petitioner, State of Alaska and applicant, Cathie Dawson pursuant to ADL 22652, ASLS 2019-69. Cathie Dawson is the current lessee of ADL 22652. This ADL file is related to the purchase of State of Alaska agriculture lands. All required information as required from the State of Alaska Department of Natural Resources have been addressed. All monuments have been placed and accepted as well as all DNR required drafting details.

ROW BACKGROUND

Within the 2020 Amended Survey Instructions, the State of Alaska required a portion of the existing 1965 60-foot-wide ROW for E. Hillside Drive, as shown on plat #65-4 for Benka Lake Alaska Subdivision, be vacated. The historical and current location for E. Hillside Drive is located substantially outside of the original described 1965 ROW. In 1984, Campbell Surveying recorded a 60-foot-wide Public Use Easement (PUE) document (Book 103 on Page 997, Talkeetna Recording Office) in an apparent attempt to capture the existing location of E. Hillside Drive and provide an adequate public access corridor for its ongoing improvements and / or maintenance for the local area residents.

FIELD SURVEY FINDINGS / ROW RECOMMENDATION

In 2020, R & K Land Surveying, LLC as-built the current location of E. Hillside Drive and found that its current location did not entirely coincide with the location as described in the 1984 PUE. The difference in location was enough to spark conversation between the State of Alaska and the Matanuska-Susitna Borough (MSB) in an effort to align the actual location of the roadway with an adequate ROW. I was tasked to draft a short summary of my findings and recommend a solution. This recommendation letter, dated July 8, 2021 was sent to the State and shared with the Borough Platting Officer. The State and the Borough decided that the best course of action was to vacate the entire existing 1965 ROW and the entire 1984 PUE description for E. Hillside Drive and dedicate a new 60-foot-wide ROW to clear any confusion related to ROW location for the

March 4, 2026

roadway. The preliminary plat for ASLS 2019-69 provides a graphic representation of the new ROW to be dedicated and the existing ROW/PUE to be vacated. Within the MSB pre-app dated January 27, 2026, MSB DPW Pre-Design and Engineering Division has no comments on the proposed subdivision.

PETITION TO VACATE ROW

This preliminary plat application includes a petition for vacation of right-of-way. The State of Alaska requires the vacation of existing ROW's and the dedication of a new ROW for this platting action. In 2021, the MSB Platting Department and the State of Alaska decided on a solution to finding that the existing roadway location was not adequate and/or consistent with the existing ROW. There is no visible evidence that the 1965 ROW was ever used and/or developed. 1970 USGS imagery shows E. Hillside Road constructed in its current location. The 1984 PUE, as currently described, is not sufficient to cover the current location of E. Hillside Road.

The proposed ROW dedication provides better legal access than the 1965 ROW since the road is actually constructed and will be located entirely within the proposed ROW. The actual road location only utilized approximately 20% of the existing 1965 ROW and potentially 50% of the 1984 PUE, this is not sufficient to cover all of the constructed roadway. Vacating the existing 1965 ROW and 1984 PUE does not limit public access to the area since these corridors were meant to provide legal access along the same existing roadway. The proposed ROW provides the required legal access along the existing roadway. The proposed ROW is the same width as the existing ROW width and was consistent with the 2020 MSB Subdivision Construction Manual legal access width standards during the conversation with the State and the Borough when proposing a recommendation for new ROW. It is my understanding that the proposed ROW is also consistent with the 2022 MSB Subdivision Construction Manual as the MSB DPW Pre-Design and Engineering Division has no comments regarding the requested vacations or new ROW.

If you have any questions, please do not hesitate to contact me.

RE: ASLS 2019-69 Topographic Narrative

MAR 13 2026

PLATTING

Mr. Wagner,

This letter is being provided regarding the preliminary plat submittal for ASLS 2019-69 on behalf of Cathie Dawson. This letter covers the topographic narrative of the parcel.

The SE1/4 and S1/2NE1/4 terrain is generally level with three different elevation changes. The northwest corner is essentially the lowest point and areas in the southeast quadrant is the highest, approximately 170 feet higher in elevation. Although Answer Creek does not traverse through the property, low lands associated with the historic water flowing from higher elevations affect the farthest NW corner of the property. Immediately adjacent to these low lands, the ground rises approximately 35 feet to a second level bench. This bench is heavily wooded with mature Birch and Spruce trees. The undergrowth is comprised of typical berry bushes, alder, and some devils club. Continuing in a southeasterly direction, there is another 30-foot rise in elevation to the main level area of the property. The majority of the property is at this level near the 510-foot elevation mark. This land is also heavily wooded with mature Spruce and Birch trees. This bench has recently been logged near the SW corner of the property adjacent to E. Moose Hollow Avenue. The last bench rises nearly 100 feet and parallels the east boundary line along S. Mt. Hunter Drive.

Sometime between 2004 and 2011, a 25-acre area was logged near the current homesite. This timeline is based on Mat-Su Borough imagery. The homesite is currently located near the SE corner of the property near the area where E. Moose Hollow Avenue turns into E. Hillside Drive, just north of Benka Lake. The highest part of the property is just east of the homesite with an elevation near 608 feet. The current location of E. Hillside Drive in this area traverses along the meandering elevations until the road exists the property and serves as public access to Moose Meadows and Mt. Russell subdivisions.

The following supporting documents are provided:

The preliminary plat of ASLS 2019-69 located within T24N R4W Section 4 SE1/4 and S1/2NE1/4, S.M., AK has been approved by the State of Alaska Survey section.

The Rectangular Survey Plat for T24N, R4W, Seward Meridian, Alaska, dated April 23, 1918 and officially accepted on October 7, 1918.
The Master Title Plat for T24N, R4W Seward Meridian, Alaska, shows a current date of October 18, 2018.

AFFECTED SECTION LINES:

Located within Township 24 North Range 4 West, Seward Meridian, AK
Section lines common to Sections 4, 3, 10 and 9.

SECTION LINE EASEMENT DETERMINATION / OPINION:

I have reviewed the information from the Bureau of Land Management (BLM) files, including the BLM Historical Index, BLM and / or State of Alaska Patents, Official BLM Survey Plats and BLM case abstract sheets and related conveyance deeds. Using the dates of patent entry from the

March 13, 2026

BLM patents and case abstract sheets, comparing these dates to the BLM Official Survey Plat date of approval and reviewing the status of affected lands, my opinion is as follows:

The lands underlying the subject section line(s) within the S1/2NE1/4 within Section 4 and Government Lot 1 within Section 9 were conveyed to the State of Alaska by US Patent No. 1213622. The date of entry/application according to the case file abstract for BLM case file AKA 045504 was September 3, 1958, the Patent was issued on October 17, 1960.

The lands underlying the subject section line(s) within the SE1/4 within Section 4 were conveyed to the State of Alaska by US Patent No. 1226464. The date of entry/application according to the case file abstract for BLM case file AKA 045504 was September 3, 1958, the Patent was issued on April 20, 1962.

The lands underlying the subject section line(s) within the SW1/4 within Section 4 and W1/2 within Section 9 were conveyed to State of Alaska by US Patent No. 1226381. The date of entry/application according to the case file abstract for BLM case file AKA 050886 was December 29, 1959, the Patent was issued on April 17, 1962.

The lands underlying the subject section line(s) within Section 3 and Section 10 were conveyed to the State of Alaska by US Patent No. 1233113. The date of entry/application according to the case file abstract for BLM case file AKA 052881 was August 19, 1960, the Patent was issued on August 23, 1963.

Statutory Quitclaim Deed dated December 2, 1983 and recorded on December 12, 1983 in book 98 on page 973 in the Talkeetna Recording District Office conveys Government Lots 1 and 2, S1/2NE1/4 and the SE1/4 within Section 4, selected State of Alaska lands, to the Board of Regents of the University of Alaska. This conveyance satisfies the Act of January 21, 1929 agricultural land grant provisions, but is restricted to provisions stated in AS 14.40.291 and as such state section line easements area not attached to these lands.

Statutory Quitclaim Deed dated December 21, 1983 and recorded on December 28, 1983 in book 99 on page 229 in the Talkeetna Recording District Office conveys Government Lots 1 and 2, S1/2NE1/4 and the SE1/4 within Section 4, Board of Regents of the University of Alaska lands, to the State of Alaska. This conveyance transfers the land to typical State of Alaska public domain status and as such state section line easements attach subject to AS 19.10.010. Recent discussion with the State of Alaska Department of Natural Resources concur with this statement.

Review of the BLM Historical Index indicates that the lands described above were unappropriated and unreserved Federal land and open for entry on or after April 6, 1923. These lands were selected by State of Alaska and entry applications are on file in the BLM land records. ***Surveyed or unsurveyed land owned by the state on or after July 1, 1960, the width, as identified in AS 19.10.010, is 50 feet (11 AAC 51.025 editor's note #7).***

Subject: ASLS 2019-69 Posting

Good morning Rick,

As a follow up to our conversation this morning, I have drafted the continuation request to the June 18th, 2026, Platting Board meeting.

To keep this date, the notice will need to be posted at the site no later than May 18th, 2026 (the sooner the better of course).

Please submit photos of the posted signs, this can be by email. The photos will be in the staff report packet and the affidavit will be a handout once the 30 days have passed.

Subject: Public Comment – Record of Concern: ASLS 2019-69 (State of Alaska DNR)

Matanuska-Susitna Borough Platting Board Attn: Matthew Goddard, Platting Technician

Dear Members of the Platting Board and MSB Staff,

Buddy Two Investments LLC is a land holding company that has owned the property comprising the proposed Talkeetna Mountain Estates (Preapp-2025-000222) since 2012. As long-term private landowners, we have a vested interest in the primary access corridor utilized by the State of Alaska's application for ASLS 2019-69 (specifically Noel Wien Avenue and E. Moose Hollow Avenue). While we do not strictly object to the State of Alaska creating these 2 new lots, we are submitting this written testimony to formally register a **Concern** regarding the existing traffic capacity of this corridor.

We request that the following facts and discrepancies be entered into the official administrative record for this corridor:

1. Correction of the Borough's Traffic Assumptions During our recent Pre-Application Conference (Preapp-2025-000222), the MSB Department of Public Works provided official notes stating: *"On preliminary count, Noel Wien Ave. already provides access to approximately 50 lots."*

This assumption severely underestimates the actual traffic load relying on this egress route. Our project's traffic engineer, Curt Holler, has completed a traffic mapping of this specific corridor. The study indicates a total of **124 existing, platted lots**. While the MSB may be correct that there are approximately 50 lots located directly on Noel Wien Avenue, there are dozens of additional lots located geographically past our property. Because this road network has limited other viable outlets (Birch Creek Landing), *most of these lots are forced to use Noel Wien Avenue and E. Moose Hollow Avenue to exit the neighborhood.*

2. Acknowledgment of Ongoing DPW Compromise Discussions We want to formally acknowledge and express our appreciation for recent discussions held on May 14, 2026, between our engineering team and MSB DPW regarding a potential path forward for this corridor. DPW indicated a willingness to consider certifying Noel Wien Avenue under the 1991 Subdivision Construction Manual standards, while also appropriately factoring in the recreational/weekend use of existing cabins to mitigate the mathematical ADT. We are actively working with our engineer to field-measure the road to explore this highly reasonable compromise.

However, because our field measurements will not be complete prior to today's hearing, we must submit the remainder of this testimony to preserve our factual baseline and constitutional rights on the administrative record, should the road fail to meet the 1991 certification.

3. Arbitrary Enforcement and Constitutional Proportionality Should the aforementioned 1991 SCM compromise fail to materialize, we must note that by continuing to process applications like the State of Alaska's ASLS 2019-69, the Borough is actively allowing cumulative traffic to be added to an over-capacity road. The Borough is allowing the State to

subdivide without requiring them to structurally rebuild the corridor to modern Residential Collector standards.

If the Borough accepts the road's current physical condition as sufficient for the State of Alaska to add new lots, it must apply that standard equally to private property owners. It is unconstitutional and a violation of the *Nollan/Dolan* standard of "rough proportionality" for the Borough to exempt the State from road improvements, only to later demand that a single private landowner fund 100% of a massive structural upgrade to cure a pre-existing municipal infrastructure deficit caused by the 124 lots the Borough previously approved.

4. Proposed Equitable Solution We ask the Platting Board to formally acknowledge on the record today that this total corridor already serves appx. 124 lots that must use it for egress. We urge the Borough to continue collaborating with us on the mitigated 1991 SCM certification, or alternatively, to initiate a proportional funding solution—such as a Local Improvement District (LID)—so that all utilizing properties, including the State of Alaska, existing homeowners, and future landowners, share the cost of upgrading this corridor fairly.

Thank you for your time and for entering this data into the public record.

Sincerely,

Buddy Two Investments LLC

The Alaska Department of Transportation and Public Facilities (DOT&PF) Central Region has reviewed the following plats and have the following comments:

- **Preapplication-2026-000042; PLT-21-8-3419; PA 14 Dunyon-Lentz; (Bodenburg Loop)**
 - No objection to either proposed lot divisions.
 - Platting actions change the legal description of a lot and require existing driveway permits to be re-applied for. Reapply for driveway permit for existing access to Bodenburg Loop. Driveway permits and Approach Road Review can be applied for at DOT&PF's online ePermits website: <https://dot.alaska.gov/row/Login.po>. Please contact Gabe Kutcher in DOT&PF's ROW Property Management division at 907-269-0691 if you have any questions.
- **Plat Case Number: 2026-030; MSB Waiver 93-13-PWm; Hale Estates; PA 06 Hale; (Clark Wolverine Road, Wolverine Rd)**
 - No objection to the proposed lot division.
 - Ensure that access to Clark-Wolverine Road for the western lot can meet driveway standards per [section 1190](#) of the [Alaska Highway Preconstruction Manual](#). Access must go through the technical review process through DOT&PF ROW Property Management access permitting. Driveway permits and Approach Road Review can be applied for at DOT&PF's online ePermits website: <https://dot.alaska.gov/row/Login.po>. Please contact

- Platting actions change the legal description of a lot and require driveway permits to be re-applied for. Reapply for permit for existing eastern lot access to Wolverine Road. Driveway permits and Approach Road Review can be applied for at DOT&PF's online ePermits website: <https://dot.alaska.gov/row/Login.po>. Please contact Gabe Kutcher in DOT&PF's ROW Property Management division at 907-269-0691 if you have any questions.

All properties accessing DOT&PF roads must apply to Right of Way for a driveway permit and/or approach road review, subject to provisions listed in 17 AAC 10.020. Any previously issued access permits become invalid once the property undergoes a platting action and must be reissued.

We recommend the petitioner verify all section line easements and DOT&PF road rights-of-way adjacent to their property. For assistance, the petitioner may contact the Engineering group within the Right of Way section in DOT&PF at (907) 269-0700. The petitioner is liable to remove any improvements within the easements and rights-of-way that impede the operation and maintenance of those facilities even if they are not shown on the plat, so it is in the petitioner's best interest to identify the exact locations and widths of any such easements or rights-of-way before they improve the property.

If any section line easements or road rights-of-way exist within the bounds of their plat, we recommend the petitioner dedicate them. If there is an existing right-of-way or easement, the petitioner is unable to develop that portion of the property yet continues to pay property taxes on it; dedicating will remove that cost to the petitioner.

If there are any questions regarding these comments, please feel free to contact me at (907) 269-0516 or erica.kostelecky@alaska.gov.

Hello Matthew,

PD&E comments that it has been brought to our attention the existing number of lots accessing Hillside Drive at this location is close to exceeding 100, which would require a residential collector standard road. Would it be at all possible to provide additional right of way on the inside of the curves to allow for future realignment with 550' radius curves?

Thank you.

MEMORANDUM

DATE: April 14, 2026

TO: Matthew Goddard, Platting Technician

FROM: Kendra Johnson, CFM
Senior Code Compliance Office

SUBJECT: Proposed Preliminary Plat 2026-031

Code Compliance does not have any open/active cases on the existing lot or easement that is in the Preliminary Plat request for ASLS 2019-69.

No objections with moving forward to vacate the existing PUE and dedicate an easement in line with the existing developed right-of-way.

NOTES:

- THIS SURVEY WAS ACCOMPLISHED IN ACCORDANCE WITH A.S. 38.05.102 AND GSI 2019-69.
- ALL BEARINGS SHOWN ARE TRUE BEARINGS AS ORIENTATED TO THE BASIS OF BEARINGS AND DISTANCES SHOWN ARE REDUCED TO HORIZONTAL FIELD DISTANCES.
- THE ERROR OF CLOSURE OF THIS SURVEY DOES NOT EXCEED 1:5000, AND/OR CORNER POSITIONS HAVE A RELATIVE POSITIONAL ACCURACY AT THE 95 PERCENT CONFIDENCE LEVEL OF 0.13 FEET PLUS 100 PPM.
- ALL PARCELS OF LAND OWNED BY THE STATE OF ALASKA, LOCATED WITHIN 50 FEET OF, OR BISECTED BY A SURVEYED OR PROTRACTED SECTION LINE ARE SUBJECT TO A 50 FOOT EASEMENT ON EACH SIDE OF THE SECTION LINE WHICH IS RESERVED TO THE STATE OF ALASKA FOR PUBLIC HIGHWAYS UNDER A.S. 19.10.010.
- THE BASIS OF BEARING FOR THIS PLAT IS BETWEEN THE FOUND SECTION CORNERS ALONG THE EAST BOUNDARY OF SECTION 4 AS SHOWN HEREON.
- THE COORDINATES USED FOR THE N 1/4 CORNER OF SECTION 3 & 4 ARE BASED ON AN NGS OPUS SOLUTION AND ARE CONSTRAINED TO THE NATIONAL SPATIAL REFERENCE SYSTEM USING CORN STATIONS *AC75 HURRICANE, AK2002, *AC74 CANTILLO, AK2002, *GRUX GRUX, AK2004, *AB28 RAINY, PASSAK2006, *WIKR WICKER84K, AK2008, *AC62 DENALUHWY32AK2004, AND *AC62 DENALUHWY32AK2004.

NOTES (CONTINUED):

- THERE MAY BE FEDERAL, STATE, AND LOCAL REQUIREMENTS GOVERNING LAND USE. THE INDIVIDUAL PARCEL OWNER SHALL OBTAIN A DETERMINATION WHETHER THESE REQUIREMENTS APPLY TO THE DEVELOPMENT OF PARCELS SHOWN ON THE PLAT TO BE RECORDED.
- NO INDIVIDUAL WATER SUPPLY SYSTEM OR SEWAGE DISPOSAL SYSTEM SHALL BE PERMITTED ON ANY LOTS UNLESS THE SYSTEM IS LOCATED, CONSTRUCTED, AND EQUIPPED IN ACCORDANCE WITH THE REQUIREMENTS OF THE STATE OF ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION WHICH GOVERNS THOSE SYSTEMS.
- SEE PLAT NO. 2021-2, TALKEETNA RECORDING DISTRICT FOR THE ESTABLISHMENT OF THE E 1/4 CORNER OF SECTION 4.
- A 30' WIDE UTILITY EASEMENT IS DEDICATED ON THIS PLAT; THE CENTERLINE OF THIS EASEMENT BEGINS AT A POINT ALONG THE SOUTH BOUNDARY OF SECTION 4, THIS POINT BEING EASTERLY OF THE CORNER A DISTANCE OF 1617.95 FEET; THENCE N09°54'23"E 166.92 FEET; THENCE N62°34'27"E 941.13 FEET; THENCE N50°34'28"E 202.30 FEET TO A POINT ALONG THE EAST BOUNDARY OF SECTION 4, 726.08 FEET DISTANT OF THE SOUTHEAST CORNER OF SECTION 4. THE SIDELINES OF SAID EASEMENT ARE LENGTHENED OR SHORTENED TO TERMINATE AT THE TRACT BOUNDARIES.
- A 60' ROW FOR E. HILLSIDE DRIVE IS DEDICATED BY THIS PLAT. PER THE AMENDED FINAL FINDING DATED 6/30/2021, THE CENTERLINE OF THE EXISTING GRAVEL IS SUBSTANTIALLY LOCATED IN THE CENTER OF THIS NEW RIGHT-OF-WAY.
- A 60' PUBLIC USE EASEMENT (PUE) IS DEDICATED BY THIS PLAT, TO PROVIDE ACCESS TO ADJOINING STATE LANDS. PER THE AMENDED FINAL FINDING DATED 6/30/2021, THE PUE IS COINCIDENT WITH THE WEST TRACT A BOUNDARY.
